

My skills consists of training Service-Therapy and Companion “Pet” dogs. Your PET will have much more training skills than your average training commands.

And YES, please pet them!

All Service and Therapy dogs should be trained to know how to greet and work.

If you can pet them, they are properly trained!

I also train for PTSD and Support Veterans.

Please see my website

Purchasing my dogs or training your dog is a delight in having such a well-mannered Pet!

The website offers an online educational experience to learn about the needs of your pet.

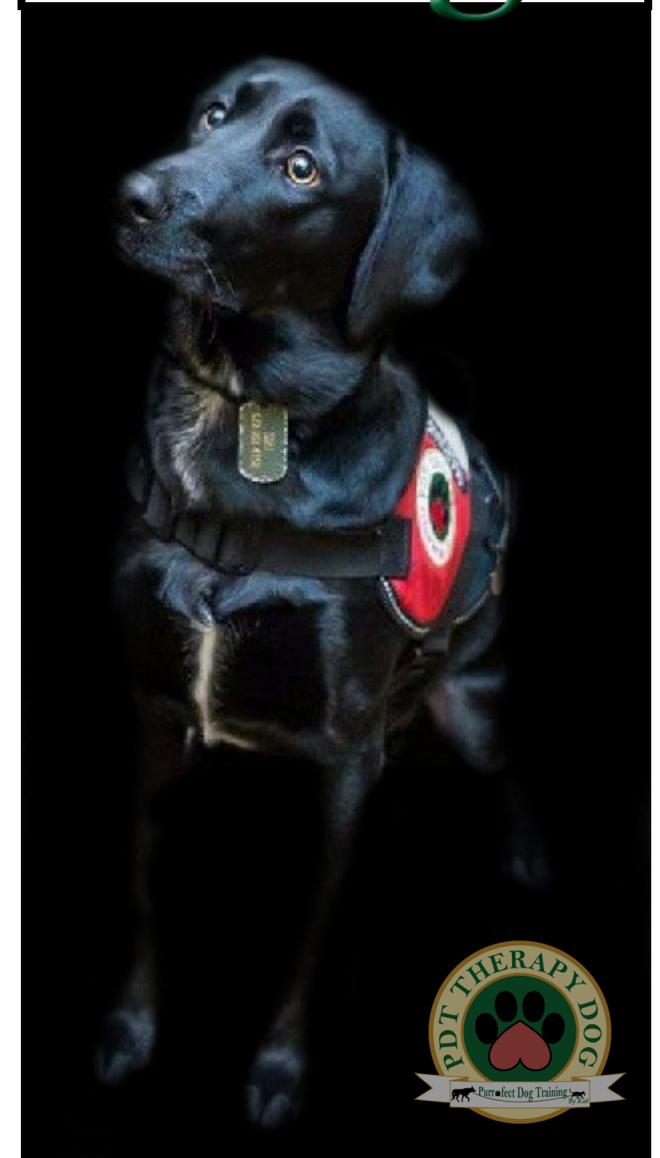

My Goal is to educate you on breeds, food, health, teeth and specific needs. I provide knowledge in written articles by research and testing products.

I can review your pet’s condition, coat and recommend specific dog food, toys and medical needs to keep the health of your pet.

Please review my Articles on my website under Animal Resources.

Also watch for available Therapy classes on my Facebook and my Website!

Purrfect Dog

40 YEARS IN TRAINING

WHAT MAKES ME DIFFERENT.....

Training is a two-way process for both owner and dog. I am here to educate the owner and reform the dog's thinking. Training involves both the owner and the dog; it is a partnership, one connected to the other.

If more people were educated about their dogs, there would be less need for shelters and less misunderstood aggressive dogs. If the dog does not understand what the owner wants of him, it will become the alpha dog, uncontrollable and misunderstood. Knowing the methodology of the training, it will keep you and the dog in sync to become the partners you want to be.

I am here to educate what your dog needs and how you, as an owner, can have a much more behaved dog. I will provide guidance and enlightenment to have the Purrfect Dog everyone envies!

All dogs want to please the owner. As a pack animal and domesticated in our culture, these dogs need the guidance and commands to survive and be satisfied in their daily lives.

I am not booked trained with fancy end titles. I watched and learned the behaviors of dogs at a very young age through interaction and curiosity. I started training dogs at age 20 with an intuitive perception of dogs.

As a Holistic Canine educator, nutritionist and healer, I can promptly evaluate a dog's temperament, learning curve and/or any problems in a body health/diet.

I believe in natural medicines and foods, holistic healing and touch. I can help your sick dog and help you understand what to do. I work determinedly to educate pet owners so they can influence veterinary medicine and change current vaccines, food and preventive health practices.

As a Canine Educator of some 40+ years,
I KNOW DOG!

Therapy dogs are dogs who go with their owners to volunteer settings such as schools, hospitals, and nursing homes.

From working with a child who is learning to read to visiting a senior in assisted living, therapy dogs and their owners work together as a team to improve the lives of other people.

PDT offers a thorough evaluation training program, and follow-up for its Therapy/Service Dogs. The handler and the dog is a team. Follow-Up Support -PDT continually supports and encourages my clients to ensure they have the most rewarding and enjoyable experiences possible.

Watch Facebook or my website for Classes that will be available.

“There is no compromise between the health of your pet and doing it right”

“My mission is to improve the dog's quality of life by radically removing the use of chemicals, pesticides and poisoning by using personal and holistic health & nutrition.”

To promote health and help prevent illness, Purrfect Dog is committed to an ongoing focus to radically reduce the chemicals, pesticides and ill health of your dog. My vision reaches far beyond the limited horizon of just making a meal but to actually heal naturally. I am striving for better quality of life for present and future generations of dogs, providing the longevity of your pet. My deep central theme is reverence for the value and beauty of all life, but mainly for a strong and healthy dog.

Keeping your dog happy and healthy starts with knowledge. I believe dogs deserve the best, such as homemade food, treats, discipline, a cozy place to sleep, and an owner who knows just what to do when their dog returns with a fresh coat of skunk spray. Here, you can learn about dog nutrition, puppy tips, training, health concerns, products and much more.

I invite you to join me in an effort to improve quality of life in a profound and practical way.

“In order to really enjoy a dog, one doesn't merely try to train him to be semi-human but to open oneself to the possibility of becoming partly a dog.”
