I specialize in canine education, helping dog owners understand their pet's needs and develop well-behaved, balanced companions that bring joy to the entire family.

As a Holistic Canine Educator, Nutritionist, and Healer, I provide comprehensive assessments of your dog's temperament, learning capacity, and health considerations including dietary needs. My mission is to empower pet owners with knowledge that enables them to make informed decisions about veterinary care, vaccination protocols, nutrition, and preventive health measures.

My facility features a curated selection of holistic grooming products and premium dog supplies. I'm pleased to announce my new Gift Gallery, showcasing original acrylic paintings and unique pet-inspired gifts.

With over four decades of experience in canine education and behavior, I bring extensive expertise to every consultation and training program. I KNOW DOG!

WHAT MAKES ME DIFFERENT...

Training is a two-way process for both owner and dog. I am here to educate the owner and reform the dog's thinking. Training involves both the owner and the dog; it is a partnership, one connected to the other. If more people were educated about their dogs, there would be less need for shelters and less misunderstood aggressive dogs.

If the dog does not understand what the owner wants of him, it will become the alpha dog, uncontrollable and misunderstood. Knowing the methodology of the training, it will keep you and the dog in sync to become the partners you want to be.

I am here to educate what your dog needs and how you, as an owner, can have a much more behaved dog. I will provide guidance and enlightenment to have the Purrfect Dog everyone envies! All dogs want to please the owner. As a pack animal and domesticated in our culture, these dogs need the guidance and commands to survive and be satisfied in their daily lives.

I am not booked trained with fancy end titles. I watched and learned the behaviors of dogs at a very young age through interaction and curiosity. I started training dogs at age 20 with an intuitive perception of dogs. As a Holistic Canine educator, nutritionist and healer, I can promptly evaluate a dog's temperament, learning curve and/or any problems in a body health/diet.

I believe in natural medicines and foods, holistic healing and touch. I can help your sick dog become a healthy well-balanced dog. I work determinedly to educate pet owners so they can influence veterinary medicine and change current vaccines, food and preventive health practices.

As a Canine Educator of some 40+ years,
I KNOW DOG!

I certify and register the training of Service-Therapy dogs. Your PET will have much more training skills than your average training commands.

As other trainers are now applying therapy training, make sure you check to make sure they have the state and federal guidelines approved.

And YES, please pet them!

All Service and Therapy dogs should be trained to know how to greet and work.

**I also train for PTSD
and Support Veterans.**

Please check out my website for more details and watch for available **Therapy classes** on my Facebook and Website.
