Wash Dog Natural Soaps

are wonderfully handmade, safe and naturally effective, unlike pesticides or chemicals that can be harmful to your furbaby. All oils used are recommended for your dog's health and skin.

Woodlands Doggie Shampoo Soap

A spot-on alternative from using pesticides or chemicals that are harmful for your dog. This soap should be used every two weeks in heavy insect areas or once a month in milder insect areas. This geranium and other essential oils soap is the utmost effective antidote for Ticks, Fleas, Mosquitoes and Flying insects. Use accordingly from spring to fall. Absolutely works!!

Stinky Doggie Homemade Shampoo Soap

An ultimate soap to bathe those stinky dogs and get the smell out. This Lemon/Eucalyptus and other essential oils soap will get rid of that odor and leave your dog smelling perfectly clean.

Winter Doggie Shampoo Soap

This moisturized essential oils soap is remarkable for that dry, dandruff skin in the winter months when you need to moisturize and condition your dog's skin. Use this soap all winter long will help maintain the nutrients which are vital for your dog's skin.

Allergy Doggie Shampoo Soap

For allergy attacks when your dog suffers from constant itching, bites and hot spots. Turmeric and other essential oils in this soap is sure to relieve those problematic areas. Wash your dog and scrub those areas deeply into the skin.

Why I truly believe You will love my soaps.....

Did you know that your skin is the largest organ you have? And that we need to be concerned what we feed it? The skin absorbs everything we put near it and on it.

I wanted to provide only the best homeopathic medicinal soap that actually works. I have done a great deal of careful research on how to naturally enable your skin to reach its full potential, selecting only the safest, natural, quality ingredients which aid in healing and vitalizing your skin. I make my soaps the old-fashioned way, using the cold-process method, which produces and retains vegetable glycerin, a fantastic humectant for your skin (which the majority of commercial soaps remove for use in high-cost luxury soaps.) This method also preserves the nutrients in the oils.

Each batch is hand-crafted using *high quality, food-grade olive oil, sustainable (grown and harvested in an environmentally safe method) organic palm oil, virgin coconut oil and "Palma Christi" castor oil (Palm of Christ; this oil has been used in cultures around the world for over 3,000 years for its many reputed healing properties).* They are singularly made, hand-cut into 4-4.5 oz. bars, then dried and cured in 4-6 weeks. Because I strongly believe in the Bible verse *"Do unto others as you would have them do unto you,"* I make every Minocqua Soap Company bar for you with the utmost care and wholesome ingredients, using only essential oils for fragrance and naturally colored with organic herbs, plants and clays. There are no chemicals, fillers, or anything imitation or synthetic.

"These soaps offer a thick, creamy lather, which cleans exceptionally well, and will leave your skin feeling wonderfully fresh and vibrant; Also making a great volumizing shampoo for you as well for your dogs." They are created for medicinal purposes, being excellent for those with problematic skin conditions caused frequently by commercial soaps and detergents. I have had many amazing reports on my soap clearing up eczema, psoriasis, dermatitis and much more. In between uses, be sure your soap can drain and not sit in water so it retains its firmness. I am very pleased to be able to offer you these products and truly
