

# Purrfect Dog Training

## Reference Sheet

Describe below any comments you would like to make on the dog training\_ boarding or experience with my business. Please be honest. Please return to me in enclosed envelope. All suggestions help to maintain a good relationship to my clients and animals and make the business the best it can be.

Baxter came to us at 12 weeks and already knew the voice and hand commands to sit, lay down, and stay. We appreciated the time Kat took to teach us how to continue his training and develop his understanding of different commands. He adapted quickly to potty training when we brought him home. Especially valuable was Kat's recommendation to train him to ring a bell near the door when he had to go outside. Another important behavior that Baxter was taught right away was how to be gentle when taking treats and receiving attention from people. He has always displayed a gentle demeanor with adults and children and adapted quickly when we recently had our first child.

Today, Baxter is 3 years old and a treasured part of our family. He enjoys playing fetch games with frisbees, tennis balls, and just about anything that can be thrown. He also loves taking walks in the park and going to play with other dogs.
