## Reference Sheet

Describe below any comments you would like to make on the dog training\_ boarding or experience with my business. Please be honest. Please return to me in enclosed envelope. All suggestions help to maintain a good relationship to my clients and animals and make the business the best it can be.

We purchased one of Kat's puppies last Oct. We were always welcome to come visit her, encouraged to bond with her and really felt a part of life early on.

By the time we were able to bring Daisy home we were nervous. Our last dog left us with some scars both emotionally and physically. Daisy had no adjustment issues and was totally trained. Amazing, no issues with potty training, no barking and totally loving.

We wanted to see if Daisy could function as a therapy dog so that we could share her loving healing and companionship with others. She is now certified at 8 months.

Kat is amazing, as Marcel states "You can't improve upon perfection".

Can I use you as a reference or contact for other interested parties that want to have their dog trained or boarded. (Please check box if Yes)
