### Dog Training

We took our 7-month-old golden retriever to Kat for some training, after we realized we could not train our very energetic puppy on our own! The entire family (grandparents included) learned more in an hour than we had in 5 months! Her techniques were easy to learn & we saw a dramatic improvement in less than a week! (and a much happier family all around!) Kat was available to call or e-mail with any questions we had & she genuinely wants parents to succeed in training their dogs!

Can I use you as a reference or contact for other interested parties that want to have their dog trained or boarded. (Please check box if Yes)
