Describe below any comments you would like to make on the dog training, boarding or experience with my business. Please be honest. Please return to me in enclosed envelope. All suggestions help to maintain a good relationship to my clients and animals and make the business the best it can be.

Sam is 5 months old and we purchased him from Kat. Breeding is the most important part - the foundation. Her puppies are solid & healthy. They have strong bones & the wonderful care & careful prenatal monitoring of Molly produced superior puppies.

Sam can walk on his hind legs for 10 feet.

Dad elderly with a torn rotator cuff. I told Kat I wanted Sam to not pull me and walk SLOW. She trained him that way and we move as one down the street.

I also wanted Sam to immediately sit if a car comes. One day he just plopped his body in front of me and I had not heard or seen the car - he could have saved my life.

Today we heard a motor and he stopped me. His head spotted 3 cars (they weren't moving) then I spotted our neighbor had a compressor running. He and I smiled and he turned it off. Sam got up and we walked home.

My husband was taking the garbage out and Sam thought he would go too. Tom was on the stairs and we both yelled sit! Sam immediately dropped butt on the landing & ^{front} but on the stairs.

Can I use you as a reference or contact for other interested parties that want to have their dog trained or boarded. (Please check box if Yes)

Ellen Sheridan, Mother to Sam and Sam's responsibility
Maggie & Pumperkin love Sam too! I'll get a picture to you soon
